No Masts in Southwell
Community Campaign

The campaign continues! We are still fighting to have O2's mobile phone mast on the Ropewalk, Southwell removed to a safer location.

- **O2 only consulted with 2% of our community.**
- **No published epidemiological research exists to confirm that O2's mast is safe for our children.**

This new petition is going to the Houses of Parliament, please support the campaign by signing below. **Thank you for your continued support.**

We the undersigned support the No Masts in Southwell community campaign to have the O2 mast at the Ropewalk, Southwell relocated with full community consultation.
